For thousands of years several locations of spring water around the world have maintained legendary status as natural water resource also known as "Miracle Water" to heal various diseases. In the 1950's scientific research was conducted and it was discovered that all of the "Miracle Healing Water" had one thing in common and that is Active Hydrogen or better known as Ionized Alkaline Water. Many years ago, Japan was hit by acid rain that contaminated rivers and surrounding ecosystems. A group of doctors gathered to save and recover the contaminated water to its original state.

In the year 1974, Enagic Company Japan with their alkaline water treatment innovated a machine for hospital usage. Few years later, this technology was improvised into a small in-home water treatment machine named LevelLuk SD 501.

"All forms of
Cancer have two basic conditions:
Acidosis (Excessive Acid condition of the
body fluids or tissues) and
Hypoxia (Lack of Oxygen)

"**Cancerous** tissues are **acidic**,
whereas healthy tissues are alkaline"

Cancer cannot live in Alkaline body!

"Deprive a cell by 35% of its oxygen

become cancerous"

ANTI-OXIDANT PROPERTY

Anti Oxidation

Anti oxidant will reduce and avoid oxidation process which leads to aging, infection and rusting, **KANGEN WATER®** possesses **Negative ORP (Oxidation Reduction Potential)** that is a strong antioxidant. Drinks such as Carbonated water, R.O (Reverse Osmosis). Tap water will cause oxidation to the body

ALKALINIZATION PROPERTY

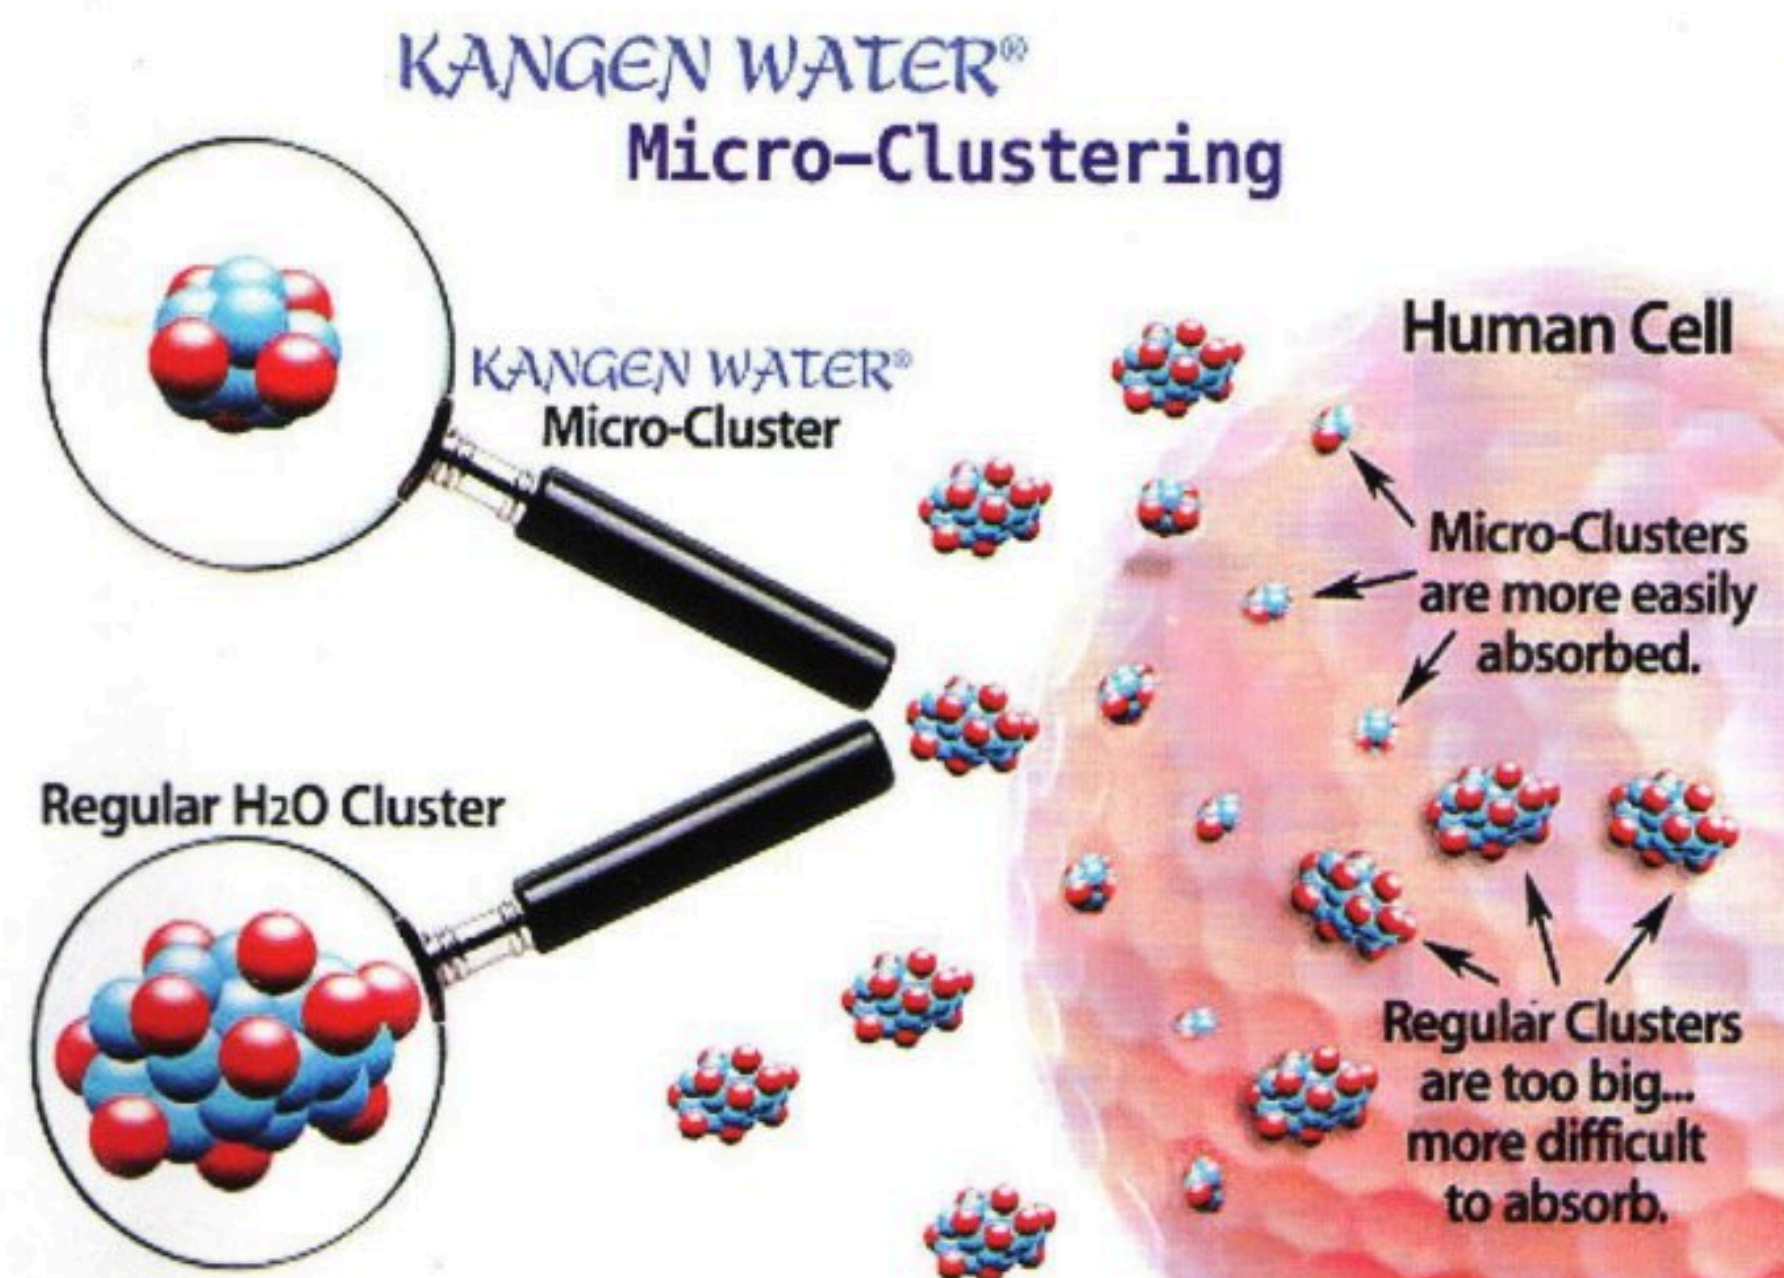

pH Chart

Potential of Hydrogen

MICRO CLUSTERING

The water we drink usually has 12-15 larger molecules making it difficult to be absorbed into the body. Kangen water® has 5-6 small molecules. What this means is that the Kangen water® without the need to be boiled, can be drunk as it has smaller molecules that is easily absorbed into the body

SD 501

Mechanism of Ionization

If you push the button for strong acidic water, the secondary hose releases strong acidic water & the flexible pipe releases strong Kangen water® at the same time

Kangen water® is produced by electrolysis process whereby electric current is passed through the water to divide them into positive and negative ions. It also contains hydrogen. Example shows 7 vertical plates, which is the number of platinum plates used in SD 501.

I have a "Kangen water®" machine in my New York Medical Office, and this is the water I drink and give to my patients

"As a Naturopathic Physician specializing in pH studies, I find Dr. Carpenter's new book a much needed, excellent tool for people to improve their health using God's medicine - Purified Kangen Alkaline Water"

If I were looking for an Electrolysis unit today, I would choose the SD501 made by the Enagic Company. The versatile multifunction SD501 is rather expensive at just \$4,000, but worth every penny & is simply the "ROLLS ROYCE" of water ionizers
